This press release may contain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. The Reform Act provides a "safe harbour" for certain forward-looking statements so long as this information is identified as forward-looking and is accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected in the information. When used in this press release, the words "estimate", "plan", "project", "anticipate", "expect", "intend", "outlook", and other similar expressions are intended to identify forward-looking statements and information. Actual results may differ materially from anticipated results as a result of certain risks and uncertainties which are more specifically set forth in AsiaSat's Annual Report on Form 20-F for the year ended 31 December 2006 on file with the U.S. Securities and Exchange Commission. These risks and uncertainties include but are not limited to (1) risks associated with technology, including delayed launches, launch failures and in-orbit failures, (2) regulatory risks, and (3) litigation and market risks. The foregoing list of important factors is not exclusive. Furthermore, AsiaSat operates in an industry sector where securities values may be volatile and may be influenced by economic and other factors beyond AsiaSat's control.
