

# ASIASAT Occasional Use Services

### The OU Essentials

- Accessibility, reliability and stability are crucial to the rapid deployment of efficient mission-critical satellite coverage of Occasional Use (OU) events along with disaster recovery capacity during emergencies
- With 28-years experience of providing the highest quality OU services, AsiaSat offers prime OU Platforms
  with exceptional customised and cost effective distribution of live sports, news, entertainment and special
  events in SD, HD and UHD formats
- AsiaSat's comprehensive C-band coverage runs from Turkey to New Zealand and across the rest of Asia, Middle East and Central Asia guaranteeing connectivity. Meanwhile, our high-powered, switchable Kuband beams deliver live-action and special events to and from any location
- With instantaneous access to the full range of Asian terrestrial TV and pay-TV headends, as well as telcos, our tailor-made solutions seamlessly mesh with regional teleports and portable flyaway systems
- Supported by our 24/7 Customer Network Centre, the dedicated AsiaSat OU team provides swift and tailored service for recurring and ad hoc live events, breaking news and emergency communications

4K/UHD transmission of international live sports
