# Chairman's Statement

---

The first six months of 2015 were a period of significant evolution in the structure and organisation of AsiaSat, as we prepared ourselves for our future growth and development. While operating in a very challenging market environment, the Company has undergone a number of important changes. In the first half of the year, we welcomed a new substantial shareholder, refreshed our brand, took action to reshape our capital structure and restructured parts of our organisation. Nevertheless, despite these changes, we have retained the core strengths that have made us what we are today: Asia's premier satellite operator.

## INTERIM RESULTS

### Turnover

For the first half of 2015, turnover was HK\$641 million (2014: HK\$694 million), representing a decrease of 8% as compared with the same period last year.

The Company's core operations continued to see pressure across various markets, with business performance negatively affected by the early termination or non-renewal of contracts by some customers due to the challenging economic conditions in their markets. However, the primary factor for the turnover decrease was the lower short-term revenue generated in the current period, compared with that of the corresponding period last year.

### Contracts on Hand

As at 30 June 2015, the value of contracts on hand remains relatively stable at HK\$3,645 million (31 December 2014: HK\$3,514 million).

### Operating Expenses

Operating expenses were closely controlled in the first half of 2015. Excluding depreciation, they totalled HK\$126 million (2014: HK\$127 million), approximately the same as compared to the corresponding period of last year.

### Finance Expenses

Finance expenses on the Ex-Im bank loan amounted to HK\$39 million (2014: HK\$18 million), of which HK\$26 million (2014: HK\$15 million) was capitalised as part of the cost of AsiaSat 6 and AsiaSat 8. We also secured a US\$240 million loan on normal commercial terms mainly to pay a special interim dividend to shareholders on 30 July 2015, of which US\$225 million of the loan was drawn down in July 2015.

### Depreciation

Depreciation in the first half of 2015 was HK\$220 million (2014: HK\$234 million), representing a decrease of HK\$14 million, as AsiaSat 3S was fully depreciated in April 2015, so that we incurred only four months' depreciation charge compared with the full six months' charge in the prior period. Pending completion of the licensing requirements for the commencement of their operation, depreciation of AsiaSat 6 and 8 had not commenced in the first half of 2015.

## Chairman's Statement

### Profit

Profit attributable to equity holders for the first half of 2015 was HK\$250 million (2014: HK\$283 million). The decline, which was mainly the result of lower revenue, partially mitigated by the lower depreciation charge.

### Cash Flow

For the first six months of 2015, the Group generated a net cash outflow of HK\$10 million (2014: cash inflow of HK\$1,905 million), including a final drawdown from the Ex-Im bank loan secured last year of HK\$189 million (2014: HK\$1,780 million), capital expenditure of HK\$441 million (2014: HK\$423 million) and an Ex-Im loan repayment of HK\$144 million (2014: Nil). As of 30 June 2015, the Group had cash and bank balances of HK\$3,336 million (31 December 2014: HK\$3,346 million).

### Dividend

The Board has declared an interim dividend of HK\$0.18 per share (2014: HK\$0.18 per share). The interim dividend will become payable on or about 4 November 2015 to equity holders on the share register as at 9 October 2015. The share register will be closed from 2 to 9 October 2015 (both days inclusive).

As a result of the share purchase agreement completed on 12 May 2015, the Board resolved on 24 June 2015 to declare a special dividend of HK\$11.89 per share. The dividend was paid by way of cash on 30 July 2015 to registered shareholders at the close of business on Thursday, 23 July 2015.

## CORPORATE DEVELOPMENT

### Share purchase agreement

The share purchase agreement announced in our 2014 annual report proceeded as planned, with an affiliate entity of The Carlyle Group L.P. ("Carlyle") acquiring all the shares in the Company formerly held indirectly by General Electric Company ("GE"), one of our former indirect controlling shareholders. (Details are set out in our Statutory Announcement of 12 May 2015). Notwithstanding the change in shareholding, AsiaSat continues to function as a publicly listed company on the Stock Exchange.

### Board and Senior Management

Following the transfer of shares, I replaced Mr. Sherwood P. Dodge as Chairman of the Board of AsiaSat. Mr. Julius M. Genachowski also joined the Board as a non-executive Director and a member of the Compliance Committee and Mr. Alex S. Ying joined as a non-executive Director, a member of the Nomination Committee and a non-voting member of the Audit Committee.

To reflect the changing market dynamics and to refocus the Company's efforts on key Asian and global markets, management restructured the sales and marketing team. A Global Accounts team was formed to handle key global strategic accounts and the sales and business development teams were combined to drive business activities in the Asian markets.

## Chairman's Statement

---

### Rebranding of AsiaSat

In 2014, the Company began a rebranding exercise to address the new market conditions. This initiative included launch of a new logo, a new tagline and a revamped website in March 2015.

So far, we have received very positive feedback from our customers, industry peers and business partners as well as our own staff. The refreshed brand has created a more vibrant and up-to-date image coupled with new initiatives for changing our philosophy and internal culture to improve our way of serving our customers.

The rebranding exercise is continuing and the momentum for change will, we believe continue to improve our services to clients.

### SATELLITES

Our fleet of six in-orbit satellites continued to provide reliable service to our customers across the Asia Pacific throughout the first six months of 2015.

AsiaSat 3S, which has been replaced by AsiaSat 7 at 105.5 degrees East, was redeployed during the review period to generate short-term revenue. It is currently at a new slot for the provision of service to a new partner later this year.

AsiaSat 4, located at 122 degrees East, continued to provide our customers with broadband and data services across the Asia Pacific region. AsiaSat 4 hosts a wide array of customers offering private networks, cellular backhaul, and maritime services.

Located at 100.5 degrees East, AsiaSat 5 continued to serve as Asia's prime distribution platform for major sporting and news events during the review period. These events included the Southeast Asia Games in Singapore, the Australian Open Tennis tournament and ICC Cricket World Cup 2015. It also carried major news coverage of the earthquake in Nepal and world summits such as the Asian African Conference in Jakarta and Bandung Indonesia.

AsiaSat 7, which replaced AsiaSat 3S in April 2014 at 105.5 degrees East, continued to take the lead in delivering premier content from South Asia, East Asia and global TV networks.

With 28 new C-band transponders, AsiaSat 6 is at a new orbital location of 120 degrees East. Fifty percent of the capacity was taken by Thaicom Public Company Limited (Thaicom) of Thailand under an agreement concluded in December 2011. The remaining 14 transponders are being reserved for the requirements of the China market.

### SATELLITES (CONTINUED)

AsiaSat 8, with 24 Ku-band transponders at 105.5 degrees East, is collocated with AsiaSat 7, where it is designed to provide high-powered capacity for a wide range of services in China, India, the Middle East and Southeast Asia.

During the review period, negotiations were still underway to provide new high-value applications in key Asian markets on both AsiaSat 6 and 8, pending licensing approvals. We will announce further developments with regard to these satellites in due course.

Construction of AsiaSat 9, which will ultimately replace AsiaSat 4 and add additional capacity, remains on track for completion in the fourth quarter of 2016.

The overall utilisation rate for the period ended 30 June 2015 was 72% as compared with 75% as of 31 December 2014.

### NEW CUSTOMERS AND RENEWALS

In the first half of 2015, we secured renewals and new customers for television and radio programme distribution and VSAT network services across the Asia-Pacific region. Among these were agreements with: BT to deliver BBC World Service Asia feed of 33 radio channels in 21 languages; TV5MONDE Style HD, a new lifestyle channel; Global Broadcasting Corporation for distributing Peace TV's HD and SD services in Asia; ANTRIX Corporation Limited; Star India Private Limited; ZEE TV; Sahara TV; B4U; and Sun Television Cybernetworks Enterprise Limited.

### MARKET REVIEW

#### The Market

In an economic environment of continuing uncertainty, the market for satellite services remained highly competitive. During the review period, excess capacity and flattening demand in certain markets put downward pressure on pricing that will likely persist into the near future until that capacity is absorbed.

Despite the challenges of this market environment, we are able to leverage on our reputation as a provider of premium services and particularly for the value we can add to our customers' businesses. To drive growth, we are focusing on customers who are key market drivers and exploring partnership opportunities to bring these customers sophisticated new technologies such as Ultra High Definition Television (UHDTV).

We are also exploring opportunities for expansion through organic growth and acquisitions wherever it is appropriate to do so.

## Chairman's Statement

---

### Advancing technology

During the review period, we continued to focus on the development of new technologies.

Although much of Asia is still in the process of converting from the Standard Definition (SD) to High Definition (HD) broadcasting standard, we are beginning to see interest in UHD which has four times the resolution of HD. While we are unlikely to see any near term impact from UHD, in order to stay abreast of this developing technology, we recently announced the opening of a UHD Research Laboratory at our Tai Po Earth Station in Hong Kong. This initiative is designed to evaluate and incubate UHD solutions with the aim of showcasing UHDTV content from various partners using a C-band transponder on AsiaSat 4.

Additionally, mobile and Wi-Fi services available on board aircraft are now becoming increasingly common in Europe and the U.S. These are two examples of new technologies and applications we are currently working on to expand within our markets.

### Industry Events

To increase our presence in the industry, during the review period we continued to participate in industry events in order to demonstrate and share our expertise in satellite broadcasting and communications.

Highlights included our participation at CommunicAsia, one of Asia's leading ICT exhibitions; and the CASBAA Satellite Industry Forum.

We also organised in-country activities, such as seminars and workshops, in order to understand our customers and their needs better. These included broadcasting and satellite technology workshops in Myanmar for the telecom and TV sectors as well as a workshop for the Bangladesh TV sector.

## OUTLOOK

The first six months of 2015 were challenging for AsiaSat and the satellite sector as a whole. The Company does not expect significant positive change in the market environment in the second half. Due to delays in licensing approvals, it is taking longer than expected to lease out the transponder capacity of AsiaSat 6 and AsiaSat 8 while the depreciation of both satellites will commence in the second half of the year. A modest percentage of the Company revenues are denominated in RMB. Should the recent volatility of the RMB continue, it will have a negative impact on the second half performance. In addition, the added interest expenses arising from the AsiaSat 6 and 8 Ex-Im loans and the bank loan raised for the special interim dividend payment will impinge on the earnings of the Company in the second half of the year.

### OUTLOOK (CONTINUED)

Despite these challenges, we are optimistic about our prospects for the future, as we operate in one of the world's growth markets. We remain vigilant in developing effective business strategies in a rapidly evolving market, where AsiaSat, with its new capacity on line continues to be well-positioned to capture the region's various growth opportunities. Our reputation as a trusted provider of premium satellite services is firmly established in the region. With the support of a new major shareholder, the Company continues to focus on incorporating new technologies and applications while offering comprehensive solutions to our valued clients. Operating under a vibrant new brand that is more attuned to developing trends, the Company is committed to maintaining and growing AsiaSat's strong position in the region while delivering improved returns to our shareholders.

### ACKNOWLEDGEMENTS

I would like to take this opportunity as the new Chairman of AsiaSat to thank my predecessor, Mr. Sherwood P. Dodge, for his exemplary service to the Company, as well as past Board members Mr. John F. Connelly and Ms. Nancy Ku for their valuable contributions. In addition, I would like to welcome Mr. Julius M. Genachowski and Mr. Alex S. Ying as new members of the AsiaSat Board.

Finally, I would like to extend my appreciation to our customers for entrusting their business to us, to our management team and staff for their commitment and hard work and to our shareholders for their continuing confidence in our company.

I look forward to serving the company as the new Chairman and working with the staff of AsiaSat to take the company to the next stage of its development.

# Corporate Governance

---

## STATEMENT

In the interest of its equity holders, the Company is committed to high standards of corporate governance and is devoted to identifying and formalising best practices. The Company is in compliance with the requirements of local and relevant overseas regulators in this regard except in respect of Code Provision A.6.7, as described below.

## CODE ON CORPORATE GOVERNANCE PRACTICES

All independent non-executive directors (“INEDs”) and non-executive directors (“NEDs”) are appointed for a specific term of three years each or, in the case of initial appointment, for the period up to the next re-election at the Company’s annual general meeting. They are all subject to retirement, rotation and re-election at the Company’s annual general meeting in accordance with the Company’s Bye-laws.

The Company is committed to maintaining high standards of corporate governance practices and procedures. The corporate governance principles of the Company emphasise a quality Board, sound internal controls and transparency and accountability to all shareholders. The Company has applied the principles and complied with all code provisions and, where applicable, the recommended best practices of the Corporate Governance Code and Corporate Governance Report (“CG Code”) as set out in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”) throughout the six months ended 30 June 2015 except for the following:

Under Code Provision A.6.7 of the CG Code, all NEDs and INEDs should attend general meetings of the Company and develop a balanced understanding of the views of shareholders. Mr. LUO Ning, being a NED of the Company, was unable to attend the annual general meeting of the Company held on 24 June 2015 (“2015 AGM”) due to other business and personal commitments. Mr. CHONG Chi Yeung, alternate director to Mr. Luo, attended the 2015 AGM in the place of Mr. Luo.

## DIRECTORS’ SECURITIES TRANSACTIONS: IN RESPECT OF MODEL CODE (APPENDIX 10)

The Company has adopted procedures governing Directors’ securities transactions in compliance with the Model Code as set out in Appendix 10 to the Listing Rules. Following specific enquiry by the Company, all Directors have confirmed that they fully complied with the Model Code throughout the period from 1 January 2015 to 30 June 2015.

### AUDIT COMMITTEE

The Audit Committee consists of six members, four of whom are INEDs who satisfy independence, financial literacy and experience requirements, whilst the other two members are NEDs and have only observer status with no voting rights. The Committee is chaired by an INED, who possesses appropriate professional qualifications and experience in financial matters.

The Committee has reviewed the accounting principles and practices adopted by the Group and the unaudited condensed consolidated interim financial information for the six months ended 30 June 2015 in conjunction with management and the external auditors of the Company. The Committee recommended to the Board that it should approve the unaudited condensed consolidated interim financial information for the six months ended 30 June 2015.

### PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the six months ended 30 June 2015, the Trust, which was set up to administer the Company's Share Award Scheme, has purchased a total of 340,000 ordinary shares of HK\$0.10 each of the Company at an average price of HK\$28 per share on the Stock Exchange. The purchase involved a total cash outlay of HK\$9,542,000. The aggregate price of the purchased shares was charged to equity as "Shares held under Share Award Scheme".

Save as disclosed above, neither the Company nor any of its subsidiary companies has purchased or sold or redeemed any of the Company's listed securities during the six months ended 30 June 2015.

### GUIDELINES ON CONDUCT

The Company periodically issues notices to its Directors and employees reminding them of the general prohibition on dealing in the Company's listed securities during the blackout periods before publication of the announcements of the interim and annual results.

### LOAN AGREEMENT WITH COVENANTS RELATING TO SPECIFIC PERFORMANCE OBLIGATIONS OF THE CONTROLLING SHAREHOLDERS

Save as disclosed below, the Directors are not aware of any circumstances which would be required to disclose herein pursuant to the requirements under Rule 13.21 of the Listing Rules.

On 24 June 2015, the Company, AsiaSat and AsiaSat BVI Limited (a direct wholly-owned subsidiary of the Company) entered into a facility agreement (the "Dividend Facility Agreement") with certain financing banks for a term loan and revolving credit facilities (the "Dividend Facility") in an aggregate amount of US\$240,000,000. The Dividend Facility is for a term of 5 years from the initial drawdown date of the Dividend Facility.

Pursuant to the Dividend Facility Agreement, if, among other things, any person or group of persons acting in concert (other than, in each case, Bowenvale or any existing direct or indirect shareholder of Bowenvale as at the date of the Dividend Facility Agreement) gains direct or indirect control of the Company, then the Dividend Facility shall immediately be cancelled and all the outstanding amounts under the Dividend Facility shall become immediately due and payable.

Details of the Dividend Facility Agreement made pursuant to the requirements of Rule 13.18 of the Listing Rules were disclosed in the announcement of the Company dated 24 June 2015.

As at 30 June 2015, the Company did not draw down any Dividend Facility available under the Dividend Facility Agreement.

## Other Information

### CLOSURE OF REGISTER OF MEMBERS

The Register of equity holders of the Company will be closed from 2 to 9 October 2015 (both days inclusive). In order to qualify for the interim dividend, all transfers, accompanied by the relevant share certificates, must be lodged with the Company's Hong Kong Branch Share Registrars, Computershare Hong Kong Investor Services Limited at Rooms 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:30 p.m. on 30 September 2015. The interim dividend will be paid on or about 4 November 2015.

## FINANCIAL REVIEW

### Turnover

Turnover for the period was HK\$641 million (2014: HK\$694 million), a decrease of HK\$53 million over the same period last year. The turnover decrease was substantially due to the decrease in revenue from non-recurring short-term deals, adjustments for continuing tax disputes and the early termination of contracts with several customers.

### Cost of services

Cost of services was HK\$275 million (2014: HK\$286 million), a decrease of HK\$11 million, mainly due to a lower depreciation charge on AsiaSat 3S which was fully depreciated in April 2015.

### Other gains

Other gains amounted to HK\$18 million (2014: HK\$22 million). The decrease of HK\$4 million was mainly due to a decrease in bank interest income.

### Administrative expenses

Administrative expenses were HK\$71 million (2014: HK\$74 million), a decrease of HK\$3 million. The decrease was mainly due to a reversal of impairment charges on trade receivables of HK\$6 million, compared to an impairment charge of HK\$2 million in the last interim period. Increased exchange losses and staff costs compared to the last interim period absorbed some of those savings.

### Income Tax expense

A significant portion of the Group's profit is treated as earned outside Hong Kong and is not subject to Hong Kong Profits Tax. Tax on income subject to Hong Kong Profits Tax is calculated at 16.5% (2014: 16.5%) of the estimated assessable profit for the period.

Taxation on overseas profits has been calculated on the estimated assessable profit for the period at rates of taxation, that range from 7% to 43.26% (2014: 7% to 43.26%), in the countries in which the profit is earned. Further details are set out in Note 9 of the condensed consolidated interim financial information.

### Profit for the period

Profit attributable to owners amounted to HK\$250 million (2014: HK\$283 million), a decrease of HK\$33 million when compared to the previous period. The factors contributing to the decline in profits are described above.

## Management Discussion and Analysis

### Order book

As at 30 June 2015, the value of contracts on hand amounted to HK\$3,645 million (31 December 2014: HK\$3,514 million), of which approximately HK\$489 million will be recognised in the second half of this year. A large majority of the contracts in the order book are denominated in United States Dollars.

### LIQUIDITY AND FINANCIAL RESOURCES

During the period under review, the Group generated a net cash outflow of HK\$10 million (2014: cash inflow of HK\$1,905 million), including the proceeds from the Ex-Im bank loan of HK\$189 million (2014: HK\$1,780 million), payment of capital expenditure of HK\$441 million (2014: HK\$423 million) and an Ex-Im loan payment of HK\$144 million (2014: Nil). As at 30 June 2015, the Group had cash and bank balances of HK\$3,336 million (31 December 2014: HK\$3,346 million).

Total bank borrowings as at 30 June 2015 were HK\$2,236 million (31 December 2014: HK\$2,183 million), all denominated in United States Dollars and at fixed interest rates for the whole tenure. There was no seasonality effect on the Group's borrowing requirement. During the period, bank borrowings were mainly used to finance the Group's capital expenditure.

Details of the maturity profile of the total bank borrowings and undrawn bank facilities are set out in Note 17 of the condensed consolidated interim financial information. All bank borrowings are denominated in United States Dollars. As the cash and bank balances exceed the bank borrowings, the Group had net cash and bank balances of HK\$1,100 million as at 30 June 2015.

## Management Discussion and Analysis

### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND ASSOCIATED COMPANIES

During the period, there were neither material acquisitions nor disposals of subsidiaries or associated companies.

### SEGMENT INFORMATION

The turnover of the Group, analysed by business segment, is disclosed in Note 6 of the condensed consolidated interim financial information.

### EMPLOYEES AND REMUNERATION POLICIES

As at 30 June 2015, the Group had 134 (31 December 2014: 133) permanent employees.

The Group considers its human resources as one of its most valuable assets. The talent pool that the Group draws from overlaps with the telecommunications, information technology and some high-tech equipment vendor industries.

The Group has established a performance-based appraisal system. The present remuneration package consists of salaries, discretionary bonuses, share award scheme and fringe benefits that are comparable with the market.

A share award scheme (the "Share Award Scheme") was established on 22 August 2007; it is a long-term incentive plan designed to attract and retain the best senior staff for the development of the Company's business. Under the Share Award Scheme, shares of the Company (the "Award Shares") are granted to eligible employees of the Company or any of its subsidiaries. The Award Shares vest after a certain period or lapse under certain circumstances as set out in the Share Award Scheme rules. The Company has appointed Equity Trust (Jersey) Limited to be the trustee to purchase and hold the Award Shares upon trust to facilitate the servicing of the Share Award Scheme for the benefit of the eligible employees.

The Group does not operate an in-house training programme. However, the Group does provide ad hoc training and sponsors employees to attend external vocational training that is relevant to the discharge of their duties and their career progression.

### CHARGES ON GROUP ASSETS

Save as disclosed in Note 17 of the condensed consolidated interim financial information, there was no charge over the Group's assets.

# Management Discussion and Analysis

## CAPITAL COMMITMENTS

Details of the capital commitments of the Group are set out in Note 18 of the condensed consolidated interim financial information.

As at 30 June 2015, the Group had total capital commitments of HK\$833 million (31 December 2014: HK\$1,280 million), of which all were contracted but not provided for.

## CAPITAL STRUCTURE

### Funding and treasury policy

The Group adopts conservative treasury policies and exercises tight control over its cash and risk management. Cash is generally placed in short-term deposits denominated in United States Dollars and Renminbi to meet its payments.

### Hedging for Exchange rates and Financial instruments

The Group's revenue, capital expenditure, main operating expenditure and bank borrowings are denominated in United States Dollars, Hong Kong Dollars and Renminbi. The effect of exchange rate fluctuation in the United States Dollar is insignificant as the Hong Kong Dollar is pegged within a narrow band to the United States Dollar at the approximate exchange rate of HK\$7.80 to US\$1.00. The foreign exchange rate of the Renminbi was relatively stable during the period ended 30 June 2015. The Group continues to monitor currency movements and we will take appropriate action if it is commercially viable for the Group to hedge against foreign currencies. As the interest rate on the bank borrowings of the Group is fixed for the loan period, there is no need to hedge interest rate risk.

## Management Discussion and Analysis

### GEARING RATIO

The Group's gearing ratio is calculated by dividing the net debt by the net total capital. The net debt is the total interest bearing bank borrowings less total cash and bank balances. The total capital is the consolidated shareholders' equity plus the total net debt. As at 30 June 2015, the Group's gearing ratio was as follows:

	<b>30 June 2015 HK\$' million</b>	31 December 2014 HK\$' million
Total bank borrowings	<b>2,236</b>	2,183
Less : Cash and bank balances	<b>(3,336)</b>	(3,346)
Net Cash	<b>(1,100)</b>	(1,163)

As the Group has a net cash balance, the gearing ratio is not applicable to the Group as at 30 June 2015 and 31 December 2014.

### CONTINGENT LIABILITIES

Particulars of the Group's contingent liabilities are set out in Note 20 of the condensed consolidated interim financial information.

# Notes to the Condensed Consolidated Interim Financial Information

## 1 GENERAL INFORMATION

Asia Satellite Telecommunications Holdings Limited (the “Company”) and its subsidiaries (together, the “Group”) are engaged in the provision of satellite transponder capacity.

The Company is a limited liability company incorporated in Bermuda as an exempted company under the Companies Act 1981 of Bermuda (as amended). The address of its registered office is Canon’s Court, 22 Victoria Street, Hamilton HM12, Bermuda.

The Company is listed on the Stock Exchange.

This condensed consolidated interim financial information is presented in thousands of Hong Kong Dollars, unless otherwise stated. This condensed consolidated interim financial information was approved for issue on 27 August 2015.

### Key events

On 12 May 2015, Carlyle (incorporated in the United States) completed its acquisition of all the interests in Bowenvale held by GE incorporated in the United States), the immediate holding company of the Company, and became one of the major shareholders of the Group.

## 2 BASIS OF PREPARATION

This condensed consolidated interim financial information for the six months ended 30 June 2015 has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, “Interim financial reporting”. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2014, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

As at 30 June 2015, the Group’s current liabilities exceeded its current assets by approximately HK\$1,967,021,000 (31 December 2014: net current assets of HK\$2,788,944,000). The current liabilities mainly consisted of a dividend payable of HK\$4,803,880,000 (31 December 2014: Nil) which was fully paid in July 2015 and funded by the Group’s internal resources and available banking facilities (as detailed in Note 17). The Group’s forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current resources and facilities. Based on these forecasts and projections, the directors have a reasonable expectation that the Group will have adequate resources to continue its operations and to meet its financial obligations as and when they fall due in the next twelve months from the date of this condensed consolidated interim financial information. The Group therefore continues to adopt the going concern basis in preparing its condensed consolidated interim financial information.

# Notes to the Condensed Consolidated Interim Financial Information

## 3 ACCOUNTING POLICIES

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2014, as described in those annual financial statements.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

There are no amendments to standards or interpretations that are effective for the first time for this interim period that could be expected to have a material impact on this Group.

The following new standards, amendments to standards and interpretations have been issued, but are not effective for the financial year beginning 1 January 2015 and have not been early adopted:

HKFRSs (Amendments)	Improvements to HKFRSs 2014 <sup>1</sup>
HKAS 1 (Amendment)	Presentation of Financial Statements <sup>1</sup>
HKAS 16 and HKAS 38 (Amendment)	Classification of Acceptable Methods of Depreciation and Amortisation <sup>1</sup>
HKAS 16 and HKAS 41 (Amendment)	Agriculture: Bearer Plants <sup>1</sup>
HKAS 27 (Amendment)	Equity Method in Separate Financial Statements <sup>1</sup>
HKFRS 10, HKFRS 12 and HKAS 28 (Amendment)	Investment Entities <sup>1</sup>
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets between Investor and its Associate or Joint Venture <sup>1</sup>
HKFRS 14	Regulatory Deferral Accounts <sup>1</sup>
HKFRS 15	Revenue from Contracts with Customers <sup>2</sup>
HKFRS 9	Financial Instruments <sup>3</sup>
HKFRS 11 (Amendment)	Accounting for Acquisitions of Interests in Joint Operations <sup>1</sup>

<sup>1</sup> Effective for the Group for annual periods beginning on or after 1 January 2016

<sup>2</sup> Effective for the Group for annual periods beginning on or after 1 January 2017

<sup>3</sup> Effective for the Group for annual periods beginning on or after 1 January 2018

The Group is in the process of making an assessment of the impact of these new and amended standards upon initial application and is not yet in a position to state whether these new and amended standards will have any significant impact on the Group's reported result of operations and financial position.

## 4 ESTIMATES

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2014.

## 5 FINANCIAL RISK MANAGEMENT

### 5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: foreign exchange risk, credit risk, cash flow interest rate risk, fair value interest rate risk and liquidity risk.

The condensed consolidated interim financial information do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2014.

There have been no changes in any risk management policies since year end.

### 5.2 Liquidity risk

The Group manages its liquidity risk by ensuring it has sufficient liquid cash balances to meet its payment obligations as they fall due. The Group closely monitors its exposure to liquidity risk by reviewing the cash position report on a quarterly basis. The Group invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room to meet operation needs. The Group also reviews different funding options regularly in case needs arise.

As at 30 June 2015, the Group had unutilised banking facilities of approximately HK\$1,872,000,000 which are available for a term of 5 years from the initial drawdown date of the facilities. In July 2015, the Group had drawn down part of the facilities of approximately HK\$1,755,000,000 to finance the dividend payments and working capital of the Group.

As at 31 December 2014, the Group had available unutilised banking facilities of approximately HK\$437,898,000. Out of that amount, HK\$195,894,000 was subsequently drawn down and the remaining facilities were expired in February 2015.

# Notes to the Condensed Consolidated Interim Financial Information

## 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

### 5.3 Fair value estimation

During the period ended 30 June 2015, there were no significant changes in the business or economic circumstances that affect the fair value estimation of the Group's financial assets and financial liabilities. In addition, there were no reclassifications of financial assets.

### 5.4 Fair value of financial liabilities measured at amortised cost

The fair value of bank borrowings are as follows:

	<b>30 June 2015 HK\$'000</b>	31 December 2014 HK\$'000
Non-current	<b>1,972,180</b>	1,932,427
Current	<b>278,515</b>	254,564
	<b><u>2,250,695</u></b>	<u>2,186,991</u>

The carrying value of the Group's other financial assets and financial liabilities approximate their fair values due to their relatively short term nature of those financial instruments.

## 6 REVENUE AND SEGMENT INFORMATION

### (a) Revenue

The Group's revenue is analysed as follows:

	<b>Six months ended 30 June</b>	
	<b>2015 HK\$'000</b>	2014 HK\$'000
Income from provision of satellite transponder capacity		
— recurring	<b>614,550</b>	658,610
— non-recurring	—	1,248
Sales of satellite transponder capacity	<b>6,802</b>	15,697
Other revenues	<b>19,932</b>	18,009
	<b><u>641,284</u></b>	<u>693,564</u>

### 6 REVENUE AND SEGMENT INFORMATION (CONTINUED)

#### (b) Segment information

The chief operating decision-maker has been identified as the President and Chief Executive Officer of the Group. The President and Chief Executive Officer considers the business from a product perspective which is the operation, maintenance and provision of satellite telecommunication systems for broadcasting and telecommunication. As the Group has only one operating segment qualified as reporting segment under HKFRS 8 and the information that regularly reviewed by the President and Chief Executive Officer for the purposes of allocating resources and assessing performance of the operating segment is the financial statements of the Group, no separate segmental analysis is presented in the condensed consolidated interim financial information.

Revenue reported in Note 6(a) above represented transactions with third parties and are reported to the President and Chief Executive Officer in a manner consistent with that in the condensed consolidated statement of comprehensive income.

The Group is domiciled in Hong Kong. Revenue from customers in Hong Kong and the Greater China region for the six months ended 30 June 2015 are HK\$98,242,000 (six months ended 30 June 2014: HK\$107,038,000) and HK\$149,910,000 (six months ended 30 June 2014: HK\$148,664,000) respectively, and the total revenue from customers in other countries is HK\$393,132,000 (six months ended 30 June 2014: HK\$437,862,000). For the purpose of classification, the geographical source of revenue is determined based on the place of incorporation of the customers instead of the footprint of the satellites of the Group which may involve transmission to multiple geographical areas under a single satellite transponder capacity arrangement.

The amounts provided to the President and Chief Executive Officer with respect to total assets and total liabilities are measured in a manner consistent with that in the condensed consolidated statement of financial position. All assets and liabilities are related to the only operating segment of the Group whose operation is domiciled in Hong Kong.

### 9 INCOME TAX EXPENSE

A significant portion of the Group's profit is treated as earned outside Hong Kong and is not subject to Hong Kong profits tax. Hong Kong profits tax has been provided at the rate of 16.5% (six months ended 30 June 2014: 16.5%) on the estimated assessable profit for the period. Taxation on overseas profits has been calculated on the estimated assessable profit for the period at the rates of taxation, that range from 7% to 43.26% (six months ended 30 June 2014: 7% to 43.26%), in the countries in which the profit is earned.

Note:

- (a) During the year ended 31 December 2014, the Group received assessment notices from a tax authority to disallow the deductibility of certain items in respect of previous assessment years and additional tax provision was made accordingly. During the period ended 30 June 2015, the Group has lodged an objection to such assessment notices and has yet to receive a revised notice or response from the tax authority. In view of the latest development of the case, the Group considered that it is appropriate to maintain the additional provision made with respect to the potential disallowed items for tax deduction for prior years and also for the current period. Details were set out in Note 10 to the annual financial statements for the year ended 31 December 2014.
- (b) The Group has been in dispute with the Indian tax authority ("IR") in respect of revenues earned from provision of satellite transponder capacity. The Company has been assessed for tax by the IR on revenues received for the provision of satellite transponder capacity to certain customers for purposes of those customers carrying on business in India or earning income from any source in India. Details were set out in Note 31 to the annual financial statements for the year ended 31 December 2011 and Note 10 to the annual financial statements for the year ended 31 December 2014.

## 9 INCOME TAX EXPENSES (CONTINUED)

In May 2012, the Finance Bill was passed by the Indian Parliament and certain amendments were enacted with retrospective effect. Under the Indian Income Tax Act (as amended by the Finance Act), revenues received from the provision of satellite transponder capacity to customers which carry on business in India or earn income from any source in India (“Indian sourced”) is chargeable to tax in India subject to the judicial interpretation of the amended provision by the Courts in India. As the Finance Act introduced certain amendments with retrospective effect, this may have significant unfavourable consequences to the Group’s tax proceedings in the Indian Courts in respect of which orders in favour of the Group had been granted in the past. The amount of the Group’s revenues that is deemed to be Indian sourced is yet to be decided by the Indian Courts and therefore the exact tax consequences are still uncertain.

Based on the latest advice received by the Group from the Group’s advisers in India, the Group has recorded a provision of approximately HK\$16 million for the six months ended 30 June 2015 (six months ended 30 June 2014: approximately HK\$34 million) reflecting an appropriately conservative view based on the historical information currently available. Management intends to rigorously defend the Group’s position in this regard in the ongoing tax proceedings in the Indian Courts.

## 10 EARNINGS PER SHARE

### Basic

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the period.

### 10 EARNINGS PER SHARE (CONTINUED)

#### Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has restricted shares under the Share Award Scheme which would have a dilutive effect. The calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of outstanding restricted shares. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the restricted shares were fully vested.

## Notes to the Condensed Consolidated Interim Financial Information

### 17 BANK BORROWINGS (CONTINUED)

The above bank borrowings are denominated in United States Dollars and are secured by a charge on insurance claim proceeds relating to AsiaSat 6 and AsiaSat 8 satellites. They are repayable semi-annually commencing from February 2015 with the final repayment in April 2023 and carry coupons of 2.65% per annum (31 December 2014: 2.65% per annum). The effective interest rate on the Group's bank borrowings was 3.52% per annum during the six month periods ended 30 June 2015 and 2014.

At 30 June 2015, the fair values were based on cash flows discounted using a rate based on the borrowing rate of 2.54% (31 December 2014: 2.62%) and were within level 2 of the fair value hierarchy.

At 30 June 2015, the Group's bank borrowings were repayable as follows:

	<b>30 June 2015 HK\$'000</b>	31 December 2014 HK\$'000
Within 1 year	<b>276,444</b>	254,039

## SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".
